About Coleman®

The outdoors are calling and we create innovative gear to help you answer it and experience memories you won't find indoors.

Our Story

Our outdoor adventures started with a lantern and an idea.
Like all great stories, that was just the beginning...

Where We Started

It all began when we created the first portable, gas-powered lantern that illuminated the first evening football game west of the Mississippi. In WWII, our camping stoves transformed the way soldiers ate in the field. We continued to revolutionize the outdoors with our cooler manufacturing in the 1950s, and in the decades that followed we added tents, sleeping bags, lighting, and more.

Where We Are Today

After 123 years, Coleman® gear is everywhere you are: on the trail, by the lake, at a tailgate, or in the middle of a music festival. We're always around a place where there are friends, coolers, and campfires. So, grab a tent, fire up a grill, and pull up a chair. The Outside Is Calling. Answer it.
